4. PLANNING TOPICS OF INTEREST A. Transit-Oriented Land Use Vision Map – Follow Up from Forward Pinellas Work Session	Rodney Chatman reported back to the PAC regarding some of the board member comments from the March 31st work session relating to the vision map. Heather Sobush also advised her key takeaways which included the fact that the board members wished to place the BRT route on the map with stations. She stated that overall the board members felt the work and data behind Greenlight were still valuable and useable. Rodney advised that next steps would include a review of the current Countywide Rules and consideration of an amendment to them if warranted. Forward Pinellas is also considering the possibility of having two maps; one a visionary map and the other regulatory. He suggested the PAC members would benefit from the Central Ave BRT presentation by PSTA.	

DRAFT

B. Pinellas County Stormwater Manual	Rahim Harji, Director, Pinellas County Public Works, provided background information on the development of the new Stormwater Manual which was adopted by the Board of County Commissioners on February 21, 2017 and became effective April 1, 2017. He reviewed the purpose of the manual, the public involvement process, and the primary areas of change. He outlined the manual broadly to include performance standards, best management practices, case studies and next steps. He answered several questions that arose from the PAC members and advised of upcoming training sessions.	
5. <u>OTHER PAC BUSINESS/PAC DISCUSSION AND UPCOMING AGENDA</u> A. Pinellas SPOTlight Emphasis Areas Update	Rodney Chatman briefly updated the PAC on the SPOTlight Emphasis Areas noting that Forward Pinellas will continue to focus on the same areas in the coming months as some areas have received less attention to this point. He advised there is a bill in the legislative session at present regarding waterborne transportation and the Mayor Kriseman is focusing on the results from the Cross Bay Ferry pilot and discussing future options. Forward Pinellas continues its work with Pinellas County on the US 19 Economic Analysis and including Tarpon Springs in the study area.	
B. Truth in Annexation Online Worksheet – Update for 2016/17 Fiscal Year	Linda Fisher demonstrated the new version of the worksheet as found on the Forward Pinellas website and thanked the PAC members for providing the updates on the data required to run the application.	
C. Legislative Update	Linda Fisher updated the PAC members on bills of interest currently making their way through this legislative session.	
6. <u>UPCOMING EVENTS</u>	The PAC members received and shared information regarding upcoming events of interest.	
7. <u>ADJOURNMENT</u>	The meeting was adjourned at 2:40 p.m.	

Respectfully Submitted,

3A. Case CW 17-3 – City of Pinellas Park

SUMMARY

From: Residential Low Medium (RLM)
To: Public/Semi-Public (P/SP)
Area: 1.4 acres m.o.l.
Location: North of 66th Ave North between 38th and 40th Streets North

This proposed amendment is submitted by the City of Pinellas Park and seeks to amend a property totaling approximately 1.4 acres from RLM (used to depict areas that are primarily well-suited for suburban, low density or moderately dense residential uses at a maximum density of 10 dwelling units per acre) to P/SP (intended to recognize institutional and transportation/utility uses that serve the community or region, especially larger facilities having acreage exceeding the thresholds established in other plan categories, and which are consistent with the need, character, and scale of such uses relative to the surrounding uses, transportation facilities, and natural resource features). This amendment qualifies as a Type A subthreshold amendment because it is less than ten acres in size and meets the balancing criteria.

The subject property is vacant. The proposed use is overflow parking for the Youth Park located to the south. If approved, this amendment will be consistent with the Pinellas Park Comprehensive Plan.

FINDINGS

Staff submits the following findings in support of the recommendation for approval:

A. The Public/Semi-Public category recognize the proposed use of the site, and is consistent with the criteria for utilization of this category.
B. The proposed amendment either does not involve, or will not significantly impact, the remaining relevant countywide considerations.

Please see accompanying attachments and documents in explanation and support of these findings.

4A. Pinellas County Medical Marijuana Ordinance

FORWARD PINELLAS
Integrating Land Use & Transportation

SUMMARY

As a result of the passage of Amendment 2 which established Article X, Section 29 of the Florida Constitution, the 2017 State Legislature is currently drafting legislation to expand the operation of medical marijuana treatment centers and the availability of medical marijuana to treat debilitating medical conditions. Currently, Florida Statutes limit the use of medical marijuana to low THC products (Charlotte's Web) for use by those patients that are terminally ill. Furthermore, Section 381.986(8)(b), Fla. Stat., permits counties to *"determine by ordinance the criteria for the number, location, and other permitting requirements that do not conflict with state law or department rule for all dispensing facilities of dispensing organizations located within the unincorporated areas of that county"*. While it is expected that additional changes may occur to Section 381.986 as a result of the passage of Amendment 2, Pinellas County is moving forward with establishing zoning and performance standards for medical marijuana facilities. In the interim, on January 27, 2017, the Pinellas County Board of County Commissioners passed a 180 day moratorium on applications for new medical dispensing facilities and marijuana treatment centers to allow time to draft new zoning regulations and performance standards for this new and unique use.

Renea Vincent, AICP, Pinellas County Planning Director, will provide the Planners Advisory Committee (PAC) with an overview of the proposed ordinance that establishes new definitions related the various uses/aspects of medical marijuana, establishes appropriate zoning districts and approval process for the associated uses, and establishes required distance separation requirements for such uses from schools, churches, and public parks, as well as distance separation requirements from other medical marijuana uses.

4B. Legislative Update

SUMMARY

The 2017 Legislative Session ends on May 5th. After the session is over, we will update the Board and advisory committees on the final tally of bills passed and signed by the Governor. In the interim, a summary prepared by the Florida Chapter of the American Planning Association is attached for your reference, and a number bills with relevance to land use planning are summarized below.

Community Redevelopment Areas

House Bill (HB) 13, filed by Representative Raburn, originally prohibited the creation of new Community Redevelopment Areas (CRAs) as of July 1, 2017, and required termination of each existing CRA on the expiration date stated in the agency's charter or on September 30, 2037, whichever is earlier. The bill has since been amended to allow a new CRA to be created only through a special act of the legislature, and to allow termination of an existing CRA to be overridden by supermajority vote of the local governing body. The bill still provides that any CRA reporting no revenues, expenditures, or debt for three consecutive fiscal years will be declared inactive, and imposes new reporting and ethics training requirements. The effective date is October 1, 2017.

Companion Senate Bill (SB) 1770 is similar, but the current amended version would allow a new CRA to be created through supermajority vote of the local governing body rather than a special act. As of the writing of this memo, CS/SB 1770 has been passed by only two of its four committees, while CS/CS/CS/HB 13 has been passed by the House on third reading and is awaiting scheduling of a Senate vote.

Vacation Rentals

The original text of HB 425, filed by Representative La Rosa, and SB 188, filed by Senator Steube, would have restored a controversial 2011 statute that broadly prohibited local governments from regulating vacation rentals based on classification, use or occupancy. Both bills have since undergone strike-all amendments.

The amended version of both bills retains the current preemption that local governments cannot prohibit vacation rentals or regulate the duration or frequency of vacations rentals other than through a local regulation that was adopted on or before June 1, 2011. New language would allow a local government to amend such regulation to be less restrictive, or to reduce the regulatory burden on armed forces personnel or veterans, without losing its grandfathered status.

In addition, HB 425 has been further amended to authorize local governments to regulate activities that arise when a property is used as a vacation rental if the regulation applies uniformly to all residential properties; and to require vacation rental owners to submit copies of vacation rental licenses, certificates of registration, and emergency contact information to the local jurisdiction. Both bills would take effect upon becoming law.

CS/HB 425 has cleared its committees and is awaiting a vote on first reading of the full House. CS/CS/SB 188 has also cleared the committee process, but has not yet been scheduled for a vote of the full Senate.

Wireless Infrastructure

The original version of SB 596, filed by Senator Huston, and HB 687, filed by Representative La Rosa, broadly preempted local regulation of small wireless antennas and equipment in the public right-of-way, restricting local government authority to the application of building and safety codes only, and sharply limiting compensation that could be sought from utilities. The two bills have since been amended with similar language, allowing local governments some additional authority to regulate the number, placement and appearance of wireless facilities or to deny applications. The effective date of both is July 1, 2017.

CS/CS/CS/SB 596 and CS/CS/HB 687 have each cleared their committees and are awaiting votes on first reading in their respective chambers.

Local Regulation Preemption

HB 17, filed by Representative Renner, is a broadly-worded bill that prohibits local governments from adopting or imposing new regulations on businesses, professions, or occupations unless expressly authorized by general law, and allows existing regulations to continue only until July 1, 2020. While unlikely, there is a possibility that the proposed legislation could be applied to land use and zoning regulations authorized by mechanisms other than general law, such as those in the Countywide Plan. The effective date is July 1, 2017.

The bill was referred to two committees and passed one, but has not yet been scheduled to be heard by the second, limiting the likelihood that it will move further at this late date. It does not have a companion bill in the Senate.

Medical Marijuana

Of the several bills that proposed to implement Amendment 2 by allowing and regulating various aspects medical marijuana, only two have cleared the committee process. Most were not scheduled for any committee votes.

HB 1397, filed by Representative Rodrigues, covers a large array of topics related to medical marijuana regulation. From a land use standpoint, it authorizes local governments to regulate the number and location of dispensing facilities and establish permitting requirements provided they are not in conflict with state law or Department of Health rule. The bill prohibits dispensing facilities within 500 feet of a private or public elementary, middle or secondary school unless a local government approves the location as promoting the public health, safety, and general welfare of the community. Local ordinances may not be less restrictive than those governing establishments that primarily serve alcoholic beverages. Dispensing facility locations already approved by local governments under existing statutes are exempt from the new provisions. The bill would take effect upon becoming law.

HB 7095, filed by Representative Plasencia, is a linked bill that amends public record laws to reflect the changes made by HB 1397. It exempts personal identifying information in the registry of patients that obtain marijuana for medical use from public records, but allows practitioners and dispensing facilities to access this information. The bill would take effect upon HB 1397 becoming law.

CS/CS/HB 1397 has cleared its committees and is awaiting scheduling of a House vote. CS/HB 7095 has also cleared the committee process and passed on first reading of the full House. Neither bill has a Senate companion.

TBARTA

SB 1672, filed by Senator Latvala, and HB 1243, filed by Representative Raulerson, propose to reorganize the Tampa Bay Area Regional Transportation Authority, renaming it the Tampa Bay Area Regional Transit Authority and narrowing its focus to regional transit for a smaller number of counties.

The original bills would have limited the scope of the new authority to Pinellas, Hillsborough, Pasco and Manatee Counties, while the current amended language also includes Hernando County. A funding source for the authority is not identified. SB 1672 imposes further limitations that HB 1243 does not, requiring legislative approval for any local spending on a rail transit, and prohibiting expenditures to advocate for rail transit in a voter referendum. The effective date for both bills is July 1, 2017.

CS/CS/SB 1672 and CS/CS/HB 1243 have each cleared their committees and passed on first reading in their respective chambers.

Legislative Update for the week ending 04/21/2017

Overview

Greetings Readers! There are only 14 more days until the 2017 Legislative session is scheduled to adjourn. Committees are winding down, and at this point if your bill has not made it out of committees then for all practical purposes you can say that your bill is done. Try again next year. There are only a few committees that will meet next week and that will be the last hope for some of these bills.

This past week was one filled with plenty of drama, which had the effect of moving focus away from the differences in the two budget proposals from each chamber. A Senator, while at a social function on Monday evening, used some alcohol-fueled language that caused a stir the size of a hurricane among both chambers and the press. By Thursday a lawyer had been hired and the Senator he was saying that he was planning to run for re-election next year. He doubled down and stated he would call members out and show that many others had done similar misdeeds. By Friday morning he had resigned his seat. The whole affair was quite a big distraction from the larger looming issue of working out budgetary differences between the House, Senate and Governor. Hopefully this coming week will bring a lot of progress on a budgetary solution.

I have noted that some of our members drive autos that sport the "Share the Road" license plate and support cycling in Florida. I was made aware of an amendment to a bill that would move the funding to a new program. HB 1375 (Specialty License Plates), is the bill with the provision to change how the funds are used through this license plate. Currently, $15 for each Share the Road plate goes to Bike Florida and Florida Bicycle Association. The funding would be re-directed to the Florida Sports Foundation who would then distribute some of the funds to Bike Florida and Florida Bicycle Association. Additionally, the Florida Sports Foundation would take some funds for administrative purposes. There are two companion bills, SB 56 which does not appear to be moving and SB 784 which is on the agenda for the Appropriations Committee (04/25/2017). An amendment could be attached to SB 784 on Tuesday. Keep an eye on these bills.

As mentioned in last week's newsletter, a budget that is acceptable to both the House and Senate must be finalized by May 2nd to allow for a 72 hour "cooling off period" before a full vote on May 5th which is the scheduled end of session. The clock is ticking, and May 2nd is not that far away. My daughter's middle school teacher has a sign in the classroom that reads "Deadlines are closer than they appear". That message seems rather appropriate right now, let's hope that a lot of progress is made in reaching a compromise on the budget.

This Legislative Update is a bit smaller than previous weeks. Any bill that has not advanced out of committees or is not being heard in one of the few remaining committee meetings this coming week has been removed from the newsletter. Those bills will have to try again next year.

We will catch up with you next week – I hope you enjoy this edition of the Legislative Update!

5B. The Knowledge Exchange Series - Shotgun Houses

FORWARD PINELLAS
Integrating Land Use & Transportation

SUMMARY

A shotgun style home, which is a long, narrow structure where the rooms are arranged one after the other, was a popular style of home in the southern United States from the end of the Civil War to the 1920's. This style of housing is re-emerging as a creative way to incorporate single family-detached infill on smaller lots in older neighborhoods, while also offering residents more diverse housing options. For this Knowledge Exchange Series topic we will be researching the history of this type of housing, learning how modern interpretations might be permitted and built, and identifying the challenges and potential solutions at the local level to accommodate this type of housing. To achieve this purpose, we will be working with the City of Tampa, the City of St. Petersburg, the City of Oldsmar, developers, homebuilders, and other agencies in the Tampa Bay area to better understand the considerations involved in the planning, permitting, financing, and construction of this style of residential structure.

Shotgun housing would comfortably fit into a number of categories under the Countywide Rules, moreover, this style of housing may require increased densities, and affordable housing density bonuses. Local governments that are considering adding or amending regulations governing this type of residential housing type may also benefit by learning from the experiences of other communities with shotgun homes (or similar tiny and skinny homes).

We would like to have an open discussion among the PAC membership:

- Do you allow a variation of shotgun houses (or skinny homes)?
- What challenges do you see in permitting this type of infill?
