RE: Complete Streets Program Call for Projects

Greetings,

Following two years of successful Complete Streets funding cycles, Forward Pinellas is once again making funding available to our local government partners to plan for, and construct, complete streets projects.

Tasked by the state legislature to integrate transportation and land use planning countywide, Forward Pinellas is using its funding resources to implement Complete Streets projects throughout Pinellas County. Forward Pinellas is committed to considering the needs of all users of a roadway in the planning, design and construction phases, and is using this incentive program to encourage the implementation of Complete Streets projects that help to reinforce desired land use and redevelopment activities that meet criteria identified in the adopted Countywide Land Use Plan.

Forward Pinellas is issuing this call to solicit concept planning and construction projects that meet the intent of this program. Local governments are invited to submit an application by providing the information requested on the attached applications. Additional criteria has been added this year to assist in the review of applications. Applications should demonstrate how the receipt of funding will incent or complement private sector investment. Applications are due no later than December 14, 2018 at 5:00 p.m.

Up to \$100,000 will be available in Fiscal Year 2019 for concept planning projects and up to \$1 million will be available for construction projects, to be included in the 2020/21 - 2024/25 Florida Department of Transportation Work Program. Forward Pinellas will be making our staff available to provide technical assistance throughout the application period.

If you have any questions, or would like technical assistance, please feel free to contact me directly at 727-464-5644 or at cfavero@forwardpinellas.org.

Sincerely,

Chelsea Favero, AICP
Forward Pinellas
