FORWARD PINELLAS VISION ZERO EFFORT #19-04

Information on all Forward Pinellas procurements is available online at forwardpinellas.org.

1. **Purpose and Services.** Forward Pinellas is requesting proposals from qualified firms to provide support for a Vision Zero effort. This will include a branding and public outreach effort, developing demonstration projects and developing a toolbox to implement and support Vision Zero efforts throughout Pinellas County.

The full scope of services is available in Exhibit A. Forward Pinellas is looking for a firm, with a team if necessary, to provide the services described in Exhibit A. This is not a design project.

2. **Background.** Forward Pinellas is the fictitious name for the Pinellas Planning Council (PPC) and Pinellas County Metropolitan Planning Organization (MPO). The PPC and MPO governing board memberships are the same and the unified agency has a shared Executive Director.

Pinellas County has a high number and rate of crashes that result in fatalities and serious injuries, especially with respect to vulnerable users. In addition to local and state reporting, national sources, like Dangerous by Design and the Wall Street Journal, have reported on this.

Forward Pinellas is looking to embark on a Vision Zero effort to address and prevent fatal and serious injury crashes in the county. Through its Crash Data Management System, Forward Pinellas has data on past crashes, and has reported on this information in annual trends and conditions reports, as well as through performance target-setting and reporting in its Transportation Improvement Program. Forward Pinellas wishes to address areas of concern that have high crash incidents and rates today as well as to prevent future crashes in vulnerable areas that may not yet be identified as high crash locations.

Forward Pinellas works closely with agencies throughout the county and wishes to have a high level of coordination and involvement from the community and agency partners in order to successfully address this issue.

3. **Proposal Requirements.** Each respondent must contain the name and address of the submitting firm, the email address and phone number information for the proposed project manager, and a Certificate of Insurance. No more than 30 pages may be submitted. Resumes and certificates of insurance will not count towards the page limit and may be included as part of an appendix.

4. Response Evaluation. Respondents must be licensed by the State to do business in Florida and be qualified to perform the advertised work requirements.

The award shall be made to a responsible firm whose proposal is most advantageous to Forward Pinellas, taking into consideration price and other relevant factors, listed below along with total possible points. Cost scoring is automatically assigned based on the cost spread. Disadvantaged Business Enterprise (DBE) participation is automatically assigned based on the use of DBEs. All proposals must address the relevant factors, which will be used in the evaluation process.

Exhibit A

**Forward Pinellas
Vision Zero Effort
Scope of Services**

Forward Pinellas is looking to initiate a Vision Zero effort for Pinellas County that goes beyond traditional safety studies and looks at an approach that balances education, engagement, enforcement, engineering and evaluation. As the metropolitan planning organization for Pinellas County, Forward Pinellas is not an operating or implementing agency. Through its projects and programs, Forward Pinellas supports operating and implementing agencies through planning studies, prioritization of projects and funding programs like its Complete Streets grant program. This Vision Zero effort should provide guidance and support for both Forward Pinellas and its partner agencies to continue working towards the goal of zero deaths in our transportation network. This effort is not a design effort, but should plan for and demonstrate support for a holistic vision zero program.

Partner agencies are a crucial component to this effort. These agencies range from local governments to nonprofit organizations and community groups to the Florida Department of Transportation. Engagement and support from partner agencies is necessary for the vision zero effort to be successful and make lasting change. Strengths of partner agencies and their ability to participate in a meaningful way should be considered throughout the process.

As part of this effort, Forward Pinellas would like to show examples of what implementation steps towards vision zero looks like. There is a desire in Pinellas County to take action and this should be reflected in the vision zero effort. Up to four demonstration projects should be developed (and implemented) through the course of the effort and may be focused on corridors, intersections or other efforts that are geographically balanced throughout Pinellas County. The demonstration projects should also be different in nature, such as focusing on different elements of Vision Zero (e.g., education, engineering, enforcement), using different types of roadways based on classification or jurisdiction (e.g., collectors, local roads, state facilities, county facilities) or otherwise showcase the range of options to address Vision Zero (e.g., use of trees and self-enforcing speed measures, relatable and effective community messaging, data-driven dashboard).

Forward Pinellas crash data resources, along with supplemental verified and professionally reliable information if needed, should be used in order to be reactive to areas of high need. Elements of a systemic approach are encouraged, as well as other proactive methods, to prevent future fatalities and serious injury crashes.

The Vision Zero effort should include these major components:

- A brand and branding strategy
- Public engagement, including:
 - An interactive forum and/or kickoff event that not only engages the participants (for example, partner agencies and the media) on what Vision Zero means to them and their stakeholders/community, but solicits feedback and interactions that promote involvement and the framework for continued support of the initiative as it is developed and implemented
 - Using existing community resources and organizations, such as the Pinellas County Community Traffic Safety team, the Florida Department of Health in Pinellas County's work with local governments on Health in all Policies, Bike/Walk Tampa Bay

- Building a coalition to support and continue to push for zero deaths during and after this initial effort is complete
- Methods for reaching a range of audiences (e.g., short videos, interactive activities, social media content)
- An action plan that includes:
 - A toolbox of short, mid and long term strategies, countermeasures and recommendations that provide a framework for Forward Pinellas and partner agencies to continue working towards zero deaths after this initial effort is complete
 - Measurable steps so that Forward Pinellas and partner agencies can evaluate the success of their efforts

Equity is an important consideration for Forward Pinellas and should be reflected in this effort throughout all stages.

Experience with previous Vision Zero projects and resources provided by agencies with knowledge and experience with vision zero should be considered in this effort (e.g. [Vision Zero Network](#) has developed core elements and case studies), taking into account the role of the Pinellas County MPO and PPC in the process, where feasible and applicable.

There is currently \$200,000-\$250,000 in the Forward Pinellas budget for Vision Zero. It is anticipated that this project will be a 12-18 month effort.
