the Date in the
next few weeks!

Together with the City of St. Petersburg and FDOT, we are about to begin a **Greater Downtown St. Petersburg Mobility Study** to look at optimizing the multimodal transportation network.

Part of an ongoing research series, our staff is exploring how **TOD** relates to Pinellas County, building on the work USF and others in Florida have done.

The **Gateway Area Master Plan** is wrapping up. We look forward to working with our partners on next steps!
