¹ Fire & Rescue service provided through special agreements and not an ad valorem tax are designated with the AATD taxing district.

² Residents who are within the Feather Sound Community Service District should add 0.5000 mill to the provided millage rate.

³ Residents who are within the Pinellas Park Water Management District should add 1.8670 mills to the provided millage rate. The Pinellas Park Water Management District is an independent special district created by the State Legislature, encompassing portions of the Lealman and Pinellas Park Fire Districts, and portions of the cities of Kenneth City, Pinellas Park, and St. Petersburg. See <http://www.ppwmd.com> for a boundary map.

⁴ Total Millage is the real estate total which includes the following millages: City, County Wide (General Fund, Health Department), County MSTU, School, Transit, County Library Services, Fire District, Emergency Medical Services, and 'Other Districts' (Pinellas Planning Council, Juvenile Welfare Board, Southwest Florida Water Management District) where applicable. Residents who are within the Pinellas Park Water Management District should add 1.8670 mills to the provided millage rate. Residents who are within the East Lake, Palm Harbor, Lealman, and Suncoast Fire and Rescue Districts will continue to be assessed the district rate for fire service (in addition to the municipal millage) for five years or more following annexation unless there is an executed agreement between the municipality and the fire district.

⁵ The communications service tax includes the rate established by the local government plus a state surtax of 0.6%.

⁶ For properties served by a private well and not connected to a potable water system, the water surcharge would not apply.

⁷ For those areas within the Pinellas County water service area: no surcharge would apply.

⁸ For properties served by a septic tank and not connected to a sanitary sewer system, the sewer surcharge would not apply.

⁹ For those areas within the Pinellas County North County Sewer service district: no surcharge would apply.

¹⁰ The City of Safety Harbor does not provide sewer to unincorporated residents, however those residents in the Safety Harbor Fire District located in the Oldsmar Planning Area could be provided sewer and water by that city since they are in the Oldsmar sewer and water service areas.

¹¹ For those areas within the Pinellas County South Cross Bayou sewer service district: no surcharge would apply.

¹² The solid waste and recycling values are monthly charges collected by the municipality. Solid waste and recycling in unincorporated areas are collected by the use of a free market system, except in the Lealman Solid Waste Collection & Disposal District, where the solid waste fee is assessed annually and included on the property tax bill. Some providers may include recycling as part of the solid waste charge.

¹³ The stormwater fee is a monthly charge collected by the municipality. The unincorporated county charges a stormwater fee which is assessed annually and included as part of the property tax bill.
